CLEVELAND ELECTED.

THE DEMOCRATS TRIUMPHANT.

The Majority the Greatest Ever Obtained in a Presidential Election.

NEW YORK, Nov. 8.—Grover Cleveland was elected president-to-day by one of the largest majorities ever received by a candidate for that office. He carried New York by 25,000 to 30,000 majority and Illinois by five to ten thousand. Excepting West Virginia—which is in doubt—Cleveland carries every one of the doubtful northern states, namely, New Jersey, Connecticut and Indiana, Harrison's own state, besides New York.

Of the 444 votes of the electoral college, Cleveland has 247 now with a prospect of more, Harrison 134 and Weaver, people's party candidate twenty-five. Weaver at this writing is thought to have carried Kansas, Nebraska, Nevada, South Dakota and Oregon.

The returns from the congressional districts are incomplete, but the Democrats will undoubtedly have the house of representatives, though by a greatly reduced majority. The election passed off with none of the serious disturbances which had been anticipated.

HONORED ONCE MORE.

The Hon. T. M. Daly in the Hands of Regina Citizens—A Highly Successful Banquet.

The banquet tendered to the Hon. Thomas Mayne Daly by the citizens of Regina on Wednesday evening was highly successful in every particular. At nine o'clock about seventy-five guests rose to welcome the guest of the evening.

After discussing the good things of the Banquet, the chairman, Mr. Nicholas Flood Davin, proposed the health of the Queen.

Mr. Daly responded in a happy manner to the toast "The Guest of the Evening." He said that he had received inspiration and strength from the evidences of a strong and loyal support throughout this country. He referred in a humorous way to the Regina representation at the Brandon banquet. After speaking at considerable length on the subject of immigration he concluded his remarks by assuring those present that he would endeavor to merit a continuance of their present hearty support.

The following is the programme:

1. THE QUEEN.—National Anthem.
2. THE GOVERNOR-GENERAL AND THE LT.-GOVERNOR. Song—"Canada," Dixie Watson.
3. THE ARMY AND NAVY. Song—Hamilton Lang, Moose Jaw.
4. THE GUESTS OF THE EVENING. Address—Mr. Daly.
5. SENATE AND HOUSE OF COMMONS. Response—N. F. Davin; Song—"F. A. MacNeil."
6. THE LEGISLATIVE ASSEMBLY. Response—J. H. Ross, M.L.A. and D. Mowat, M.L.A.
7. THE LEARNED PROFESSIONS. Response—Messrs. Bartlett, Scott, Johnston, Second and Cotton.
8. THE MERCANTILE INTERESTS. Response—J. A. Paddon, Hy. LeJeune, J. W. Smith.
9. THE AGRICULTURAL INTERESTS. Response—J. W. Brown, Capt. John Allan.
10. THE PRESS.—Hamilton Lang, J. H. Ross and J. K. Melrose.
11. THE LADIES.—W. L. Hamilton, Dr. Wolloughby and R. F. Chisholm.

Volunteer toasts were proposed as follows: THE CHAIRMAN, proposed by Mr. Daly, and responded to by Mr. Davin. OUR HOSTESS, Mrs. Doig, proposed by Mr. Davin, and responded to by Mr. Knight, of Swift Current.

The speeches were all appropriate and the utmost good humor prevailed throughout. The guests were all well and the evening was a most successful one.

Hugh John Will Resigns.

TORONTO, Nov. 5.—The Mail's Ottawa correspondent says Hugh John Macdonald, M. P. for Winnipeg, will send his resignation to the Speaker of the House of Commons within the present month as it is well known he has been anxious for many months to give up his seat in the House and his only reason for delay was to allow a choice to be made of a candidate likely to carry the seat. Winnipeg has always been regarded as an uncertain constituency, though the Conservatives have been carrying it of late years. The presence in the cabinet of Daly as representative of Manitoba will, it is believed, now make Manitoba safe for the government.

The ministerial candidate in the bye-election which will follow Macdonald's resignation will be Hagel, Q. C., of Winnipeg.

Fast Mail Service.

OTTAWA, Oct. 31.—It is reported that the Dominion Government intends to submit a proposition at the next session of parliament offering a subsidy of \$750,000 for a fast mail service between Canada and Great Britain. There is at present a standing offer made a half a million for a service of this kind, but so far no company has been found willing to carry out the terms of the contract for this subsidy. To complete this deal between the Government and the C. P. R. it is said that the latter will purchase the Intercolonial railway thus giving them still greater facilities to connect the steamship line with their transcontinental railway. If all this is accomplished then it is calculated that passengers can be landed in Quebec in the summer season within five days and in Chicago as soon as they can now reach New York.

School Board Meeting.

Minutes of School Board meeting held in school house on the 2nd November, 1892.

Present—Messrs. Thor. B. Baker, chairman; A. Hicks, A. Sharp.

Treasurer's reports for September and October received and adopted. Account of Wm. Walsh for coal \$28.25 received.

Hicks—Sharp—That account be paid or receipt of weight tickets.

Hicks—Sharp—That the car load of coal ordered by Chairman from the Dominion Coal & Coke Company be confirmed and Treasurer ordered to pay same.

Sharp—Hicks—That the circular re Exhibit to World's Fair be referred to the principal of the school, and that he be requested to do all he reasonably can to compete for same within his department or in any of the other departments as per enclosure.

Hicks—Sharp—That the janitor be instructed to proceed with the placing of the storm sashes.

Sharp—Hicks—That the teachers be requested to send in their applications for a re-engagement by the next regular meeting, 15th inst.

Seymour Green, Secretary.

Wedding Bells.

On the 31st of October last, Miss Mary Harris, daughter of Mr. Nathaniel Harris of Belbo Farm, near Moose Jaw, (formerly of Lisfowl, Ont.) was united in the bonds of matrimony to Mr. Hiram Chene. A large number of guests were invited to witness the ceremony. Rev. E. B. Stacey, B.A., Methodist minister, of Moose Jaw officiated. After the ceremony, which took place at 5 o'clock p.m., the guests sat down to a recherche supper and then with music, singing and games the evening was pleasantly passed. The bride, who was the recipient of a large number of useful and beautiful presents, looked charming in brown and white and pink silk.

TEACHERS' CONVENTION.

A Most Successful Gathering of Assinibola Teacher's Important Papers.

A largely representative gathering of the teachers of Assinibola was held in Regina on Thursday and Friday of last week.

Mr. Marwood, of Rose Valley, was unanimously voted into the chair. Sheriff Benson, chairman of the Regina board of Trustees, was then called upon to deliver an address of welcome which he did in his well known genuine hearty manner, thanking the convention for having selected Regina for their place of gathering. He would not detain them with a long speech for he knew that the North-West teachers were industrious and wanted to get to work.

Mr. Calder, of Moose Jaw then made an appropriate reply to Mr. Benson's address. He thanked the people of Regina for their hospitality and raised a laugh by referring to Regina mud and the difficulty of navigation on a slippery sidewalk. Mr. Calder referred to the state of education in the Territories and the necessity of providing normal instruction.

Mr. Marwood, who had also to reply to the address of welcome, was glad the work had been so taken out of his hands, and as time was getting on he thought the convention should proceed to business. The next business was the appointment of committees, critics, etc.

Mr. Miller, secretary of the Assinibola Central Convention, was appointed secretary.

Resolution committee: Messrs. Ferguson, Grimmett, Calder, Messrs. Brown and Widdemans.

Finance committee: Messrs. Chisholm, Miller, Bean and Grant.

Critics: Messrs. Chisholm and Rothwell.

Mr. D. S. McCannel, Qu'Appelle, said that under the head of etc. he would like to be relieved from the duty appropriated to him in the programme—that of having charge of the question drawer. He did not think he would be able to answer all the questions put to him by an assembly like this one. It was finally agreed to give Mr. McCannel power to add indefinitely to his number for the purpose of getting answers to obscure questions.

This matter having been satisfactorily settled, Inspector Rothwell delivered an address on "The aims of Teachers' Conventions." Men of all kinds had conventions of one kind or another, merchants, workmen, even Indians had their powwows (laughter) he didn't see therefore why teachers shouldn't have theirs. Life and movement were necessary for the proper development of human reason. Such gatherings tended to promote the social intercourse at gatherings of this kind and suggested that it would be a good plan to devote the first hour after dinner of the first day to a general introduction of one person to another "whether you knew them or not." It was considered such a movement would have permanent results. Conventions served to some little extent to take the place of the normal school where that institution was wanting. It was also the only way that teachers had of expressing their views so that they could have an effect on the legislators of the territory.

Principal Goggin, of Winnipeg, was next on the programme for a paper on literature and he delivered a most instructive address which lasted over an hour. He advocated the use of literature of a high class character for the instruction of even young children and gave interesting accounts of the success of his methods where they had been tried. He described photos of poetry and dramatic music.

By applying the test to "Mary had a little lamb," Mr. Goggin afterwards dealt with Longfellow's "Kiln and Cradle" and showed how it was possible to create a strong interest in the minds of children in the poem. Some discussion followed in the course of which a lady teacher, Miss Neville, said she had adopted the plan of teaching literature to quite young children and had found it to work well, and that the whole school work was benefited by it.

Mr. Ross, of the Dominion, on his paper. On the suggestion of Mr. Goggin various questions were put to him by members of the convention.

At the close of the discussion, in which Messrs. Grimmett, Widdemans, Calder, Marwood and Rev. J. L. Walsh took part, the convention adjourned for lunch.

To be continued.

COUPLED.

Conductor R. J. Brown a Benedict Once More.

Probably no event in social circles has occasioned the interest that was manifested in the marriage of Wednesday last of Mr. R. J. Brown of the C. P. R. to Miss Dora McDonald, of Moose Jaw.

It was popularly supposed that the marriage would take place in the Presbyterian Church, which had been lighted for the occasion, and a large gathering of friends and well-wishers of both bride and groom assembled in the edifice. Seven o'clock the hour fixed for the marriage, came but no wedding party yet in appearance. Many and various were the speculations as to the probable cause, but by half past seven all present were convinced that they had been disappointed when they learned that the ceremony had taken place nearly two hours before, and that the wedding party, for whom they had been waiting so patiently, were at that moment sitting down to the wedding supper.

To give our readers a connected story, it becomes necessary to go back a little. The bride and groom and a few friends assembled at the Moose about half past five, when the ceremony was quickly performed by the Rev. W. L. Clay. Miss McDonald, sister of the bride, performed the office of bridesmaid and Mr. Joseph Blackburn supported the groom.

Mr. and Mrs. Brown were recipients of many costly presents. After the ceremony the newly married pair, accompanied by the wedding guests, repaired to their new home on High St.

At this point an amusing incident occurred, which exhibited in an unmistakable manner the popularity of Mr. Brown, not only among railway men, but among the young men of the town. Between eleven and twelve o'clock a firing party consisting of forty-two men exclusive of officers, was organized. Capt. Nelson, First Lieutenant of the "Queen's Own" was in command. The officers and men were Joseph Cook, two drummers in the "Queen's Own," and Louis Haggarty, a former Police Scout, and a former Lieutenant. Louis Ashby of Moose Jaw, and other recruits.

The captain, after drilling the men in the ordinary company movements, explained the manner of giving a general salute and the firing of a volley. The company, being armed with Winchester Repeating and Miller Repeating rifles loaded with smokeless powder, took of "John Brown," to the confusion of Mr. Brown, on High St., where the wedding party was in progress.

The party was drawn up in line before the house and on the way back, which was with some difficulty, as the rifles were so long, the captain ordered the company to fire a volley.

After firing the party gave Mr. and Mrs. Brown a general salute, which was a most interesting and successful affair. The bride and groom were then escorted to the house by the captain.

FRIDAY, NOVEMBER 11, 1892.

THE LIQUOR COMMISSION.

An intelligent observer who follows the movements of the Royal Liquor Commission, who listens to the evidence taken, who reads thoughtfully the newspaper reports of each sitting, will be forced to the conviction that the whole business is a gigantic farce.

It simply furnishes an opportunity for individuals to air their particular fads on the Liquor Question. Strong advocates of Prohibition can find much in the evidence to bear out their views on the situation: those in sympathy with the licensed victuallers can find plenty whose opinions coincide with theirs. The question is, what is going to come of it all?

It must be apparent that the appointment of the commission was simply for the purpose of shelving the question for an indefinite period. The ostensible object would have been attained in a more sensible way by a Dominion plebiscite.

One feature of the proceedings at the sittings of the Commission strikes us as being radically wrong, viz: bringing up the names of gentlemen not present, and questioning witnesses as to their private habits. This has been done, and misstatements have been made about the private lives of individuals, and made, too, in an exceedingly unfair way. The personal element should certainly be kept out of a movement of this kind.

THE INDUSTRIAL SCHOOL.

Visitors in Regina will spend a profitable hour in visiting the industrial school a short distance out of town.

At this institution a large number of Indian children are in constant attendance. They are fed, clothed, instructed in farming, carpenter work, etc., and also receive the rudiments of an education.

In the school room the scholars show that much time and patience has been expended in their instruction. They read with expression and they show a neatness in writing that would put to shame many white children of the same age. In drawing, the Indian children particularly excel.

An efficient staff of teachers and instructors have charge of this work. Rev. Mr. McLeod, who is in charge of the institution is an energetic and pains-taking officer and a strict disciplinarian, who makes his influence tell on his assistants, and the little folks who have been committed to his charge.

The civilization of the Indian race is something that, we think, will never be accomplished. The experience of older institutions not only in Canada but in the United States, shows that the Indian will return to his savage life, even after years of instruction. Nevertheless it is interesting to note how much is being done towards this end in institutions such as the Regina Industrial School.

THE PROTECTED FARMER.

The present situation of the British farmer, affords a good example of the effects of competition.

The English peasant, it must be again urged, has the largest home market in the world. yet at the present moment is suffering to a most unusual degree through the effects of free competition or free trade. He is practically ridden to death—poverty stares him in the face, and if we may trust reliable British papers like The Times and The Mark Lane Express, his position this year is desperate. Our free trade brethren declare the trouble to be partly excessive taxation, but Mr. Courtney M.P., who has recently been receiving the encomiums of the Grit press as an orthodox anti-protectionist, denies this, and strongly asserts that if the tithe changes and other taxes were removed the change would accrue to the benefit of the landowner and not the farmer.

Notwithstanding, it behooves our farmers to note that under free trade, with the greatest market in the world at his very doors, the English farmer is being slowly bled to death.

Many of them think that protection would relieve their distress, and if either of the great political parties would promise them a degree of protection, that party would receive the support of the majority of the agricultural community. The Canadian farmer has largely benefited by our protective policy.

Prior to 1878, it will be remembered, American wheat, flour, and other breadstuffs poured into this country at their own sweet will, while the product of Canadian farms was taxed upon crossing the frontier 20 per cent. or more. The result was that in the year in which Sir John Macdonald and the Conservative party came to the relief of the Canadian farmer we were importing \$13,700,000 worth of agricultural products.

The National Policy at once remedied this trouble, and a moderate duty was placed upon competing American products, with the result noted in the following table:

	1878.	1891.
Wheat.....	\$5,810,148	\$129,867
Flour.....	1,874,758	234,318
Other breadstuffs.....	5,351,021	2,377,008
	\$13,736,925	\$2,740,293

The home market of the Canadian farmer is, therefore, increased in value to the amount of the diminished imports as well as the requirements of the half million more inhabitants in Canada since 1881. In addition to that, the tonnage of foreign goods have sent in have been made to contribute to the revenue, the amount reaching last year upwards of three quarters of a million, thus relieving the farmer of that much taxation. Meantime our production has enormously increased, proving that the Canadian farmer is not only supplying this deficiency, but is preparing for an immensely enlarged export abroad. In Ontario this expansion is very noticeable:

	1892-93.	1891
Crops.....	Bushels.	Bushels.
Fall Wheat.....	17,635,840	21,672,468
Spring wheat.....	8,679,827	10,711,538
Barley.....	19,705,734	16,161,904
Oats.....	56,566,276	75,008,542
Peas.....	12,418,124	16,328,480
Beans.....	12,198,421	16,298,650
Potatoes.....	16,381,318	24,058,888
Turnips.....	40,106,695	68,653,462

This increase of 60,000,000 bushels, roughly speaking, has been purchased in the protected home market by the artisans who have been given employment and wages under the beneficent operation of the National Policy. But the Government's policy has done more than develop Ontario's production; it has opened up Manitoba and the North West and provided that great country as a growing market for those Ontario manufactured articles, which, under any of the Opposition fiscal fads would probably be purchased from the American centres of monopoly and combine. In Manitoba, which produced practically nothing in 1878, the last two years show the following marvelous results:

	1890	1891	Yield Per Acre in 1891.
Wheat.....	14,066,700	23,191,500	35
Oats.....	8,513,433	14,702,005	48
Barley.....	2,068,415	3,197,876	38

Such evidences of expansion are not ephemeral in character or unworthy of attention. They prove beyond a doubt that the N.P. has provided a home market for the Canadian farmer, protected him against foreign competition and increased largely the production of his farm.

EDITORIAL NOTES.

The election by acclamation of Hon. T. M. Daly, member for St-Hilaire, shows that the electors of that constituency appreciate the honor conferred upon Manitoba by selecting as Minister of the Interior a promising Manitoban.

It is estimated that the total receipts from all sources and during its entire operations will net \$84,500,000 to the Chicago World's Fair. Evidently Columbus was not born for nothing.

A cheque recently issued by the assembly tells a peculiar tale. The words "member of the Executive" have a line drawn through them and the cheque is signed by R. B. Gordon, clerk of the Assembly. Comment is useless.

The Calgary Herald of last week attempts to draw an unfavorable comparison between the immigration policies of the two executives. This is a fair sample of the methods employed by some papers to dodge the real question at issue, viz., the unconstitutionality of the condition of affairs. The question is not one of minutiae.

J. R. Booth, the well known lumberman of Ottawa, has purchased the projected Parry Sound railroad, which will be connected with the Canada Atlantic & Ottawa railroad and extended to Georgian Bay, where it will meet the steamers of Lakes Michigan, Superior and Huron in a direct line from the west to the east between Montreal and the Soo. This will lessen the water route from Chicago and the western States to the Atlantic by 450 miles and as this overland route from Parry Sound to Montreal is 150 less than from Buffalo to New York, there will be a total saving of 600 miles.

A correspondent of the Globe, writing from Sault Ste Marie, says:

"The construction of the Canadian ship canal at this place is being pushed ahead with a vigor which would seem to indicate that some understanding has recently been entered into between the Government and contractors for hurrying the work to completion as rapidly as the immensity of the undertaking will permit. Additional men and derricks have been put on the work within the last month and Mr. Haney, who has charge of the construction for the contractors, told your correspondent that it was the intention to have the whole thing completed by the close of next year. He said the work could be done within that time without a strain of effort."

A case involving a rather important question has been decided by the exchequer court. It is that of the Canadian Coal and Colonization Co. v. Queen. In the first place Sir John Lister Kaye owned certain lands in the North-West which he secured from the government. During this time certain orders in council were passed reserving minerals in these lands to the government. Sir John Kaye transferred lands to this company and they claimed the coal as well as the land and got a petition of right for a case against the crown in the exchequer court. Justice Burridge has decided that the company was not aware of these orders in council and that they had a right to the minerals, of which no mention was made in their patents, as well as the land.

The Governor General, on the advice of the minister of justice, has disallowed the stream ordinance of the North-west Assembly passed last session. The ordinance provides for the erection of works on portable streams for the purpose of improvement, and allows the collection of tolls for using such improvements. It very closely resembles the Ontario streams act. The ground of disallowance is that the lands in the Northwest are all the property of the Dominion Government, and as streams are specially exempted from sale the Assembly is exceeding its powers in dealing with the subject. It is understood, however, that at the next session of parliament an amendment to the Dominion lands act will be submitted which will contain the provisions embodied in the ordinance which has been disallowed.

BUFFALO LAKE.

Closing School Examination—Presentation to Miss Alexander.

The closing examination of the children of the Buffalo Lake School was held on the 26th ult. The examination showed that the children had been receiving thorough instruction during the summer. At the close the following programme was carried out:

Recitation "Grandpa" Annie Taylor.
Recitation "Grandmother" Sadie McCartney.
Dialogue "Maggie and Willie" Franka Chorons.
The School.

At this point two of the pupils came forward and one of them, Miss Katie Taylor, read the following address to the teacher, Miss Alexander:

DEAR TEACHER AND FRIENDS,
Now that your second season has drawn to a close, and the time for your departure has arrived, we desire that you will accept the accompanying small tribute of our appreciation of the manner in which your duties have been performed, and of your care and kindness to your pupils during the time you have been their instructor.

We all join in hoping that your future may be one of abounding prosperity and usefulness.

Signed on behalf of the pupils and rate-payers of the Buffalo Lake School District.

KATIE TAYLOR,
MARY MCCARTNEY.

A silver spoon holder and a silver napkin ring supported by two miniature tennis rackets accompanied the address. The presentation was made by Miss Mary McCartney.

A number of ladies and gentlemen were present and expressed themselves as highly pleased with the proceedings.

The claim of James Conmee against the Canadian Pacific railway company for construction on the north shore of Lake Superior has been amicably settled. The claim was for a large amount, something over \$250,000. G. M. Clark representing the Coy. and Dalton Mc Carthy met in Toronto a few days ago and after a long conference compromised for an amount which it is understood will be in the neighborhood of \$200,000.

As a result of suggestions made to parliament last session as to a bill introduced, but dropped, providing that a prisoner may testify in his own behalf, the minister of justice has decided to obtain the opinion of Judges, magistrates and others concerned in the administration of criminal justice, and to this end copies of the bill have been sent out to such officials with a request to each for a statement of his opinion thereon. The circular also invited opinions upon a clause in the special committee's report, but which was not included in the criminal code providing that nine jurymen out of twelve may render a verdict after four hours' deliberation.

Militia general orders contain the following: Ninety-first battalion, Manitoba light infantry. This battalion, with the exception of Nos. 2 and 6 companies, having become non-effective is removed from the list of active militia. Lieut.-Col. Brophy is permitted to retire with rank of major, captain and adjutant. Wm. R. Dow is permitted to retire with the rank of captain. The following names are removed from the list of officers in the active militia: Capt. A. H. Correll, No. 1 Co.; Capt. Robt. Bullock, No. 3 Co.; Capt. Thomas H. Smith, No. 4 Co.; Capt. Wm. J. Stinson, No. 5 Co.; Lieutenant Thomas Norquay, No. 3 Co.; Robt. Fisher, No. 4 Co.; Richard F. Pennefather No. 5 Co.; second lieutenants Thos. W. Taylor No. 1 Co.; James G. Dagg, No. 3 Co.; William Smith, No. 4 Co.; Henry Rogers, No. 5 Co.; Paymaster Alexander McIntyre, Quartermaster Geo. P. Bliss, Sergeant John P. Pennefather, Assistant Sergeant J. Orton Grain.

SAD DAYS.

An April sun had warmed the earth,
The fields were fresh with verdure then,
And Spring's sweet radiance marked the birth
Of leafy greenness once again.
How beautiful Love seemed to be!
We wandered thro' each glade and dell,
Hairs of a glorious hope were we,
A soft voice whispered "All is well."

November's icy breezes blow,—
The fields are mantled all in white,
A winter's storm of rain and snow
Rages upon the wild tonight.
And oh! Love seems so cruel now!
The time has come when we must part,
And hide beneath a smiling brow,
The sorrow of an aching heart.

LENA MAEA.

Moose Jaw, Nov. 5th, 1892.

MEETING OF COUNCIL.

Management of the Times—A Question of Precedent.

The regular meeting of the Bohara city council was held in the council chamber on the evening of November 7th. His Worship in the chair, Councillors Jaker, Sparks, Hamblin, Submitter and the Unknown were present. In the absence of the clerk, Sparks was requested to read the minutes. The first question that claimed the attention of the council was the crossing on the corner of Curney and Railroad streets.

It was moved that the question be referred to the Public Works Committee.

Moved in amendment that the clerk call the attention of Road Master Lowe to the matter and request him to have the crossing attended to forthwith.—Amendment carried.

On motion Alexander Zoss was appointed town constable.

At this stage Squire Watson was introduced by Sparks and requested to take a seat by His Worship.

Jaker,—"I wish to move a matter of confidence in the management of the Moose Jaw Times."

Sparks,—"Let everything be done decently and in order."

Subscriber,—"This is no child's play."

His Worship,—"Let the honorable gentleman state his case."

Jaker,—"Some weeks ago I had occasion to write an article to THE TIMES and they (I have reason to believe) with malice aforethought mispelt my name and have given me a name that will follow me to the end of time."

His Worship,—"How did you spell your name?"

Jaker,—"C-r-o-a-k-e-r."

Just here some words passed between Hamblin and Jaker that could scarcely be considered parliamentary.

His Worship,—"I rule that this question does not come under the jurisdiction of this council."

Moved and seconded that the minutes be published.

Jaker,—"What have the electors to do with this council. It is not customary to let the public know what we do at our private meetings."

Sparks,—"Precedent! Precedent!"

Jaker,—"I have only to refer you to the Moose Jaw Council. They take no pains to let the electors know of their proceedings in the council.—Motion withdrawn."

After a few remarks from Squire Watson on the "Mother Land," and Sparks on "Immigration from the Older Provinces," the meeting adjourned.

A LOOKER ON.

NOTES AND COMMENTS.

The Royal Templars in Grand old work, ing a most degree in their council.

Joe Rees, the well known journeyman worker will visit Moose Jaw during the winter.

Walsley Council No. 8, R. T. of T. edit a paper called "The Prohibitionist" for the benefit of the council.

Varying estimates of the number of Roman Catholics in England are often given. At the recent meeting of the Catholic Truth Society in Liverpool, Rev. J. St. Augustine stated that out of 29,000,000 people in England hardly one had a half notion of the true and ancient faith.

The Royal Templars will give an entertainment in the new Town Hall as soon as it is finished. It is intended to make this the last entertainment of the season.

During the past few months Canadian banks have been enjoying prosperity unknown for years. Not only has money been actively employed in mercantile pursuits at home, but there has been an unprecedented demand from Chicago, St. Paul, Minneapolis and other western States where an excessive rate prevails. At the close of September Canadian banks had loaned on public discounts in Canada \$109,157,185 and call loans in the United States of \$22,840,000, of which sum the Bank of Montreal had \$18,184,282. The total call loans in Canada were \$19,828,270.

A sheep rancher, near Fort Qu'Appelle, Assa, reports he has discovered some new light on one form of sheep trouble. Halls have been found in the stomach of sheep, which from their texture have been assumed to be composed of wool, supposed to be eaten when biting ticks in warm weather. It is now noticed that in spring sheep run greedily to eat the crocus, and the woolly fibre of this flower is believed to be, by the rancher referred to, the true cause of this bailing. Sheep kept away from the ground covered by the crocus were all right, while those that pastured there were found when killed, to have the halls inside.

Lord Tennyson's funeral seems to have been one of the most solemn scenes ever enacted in the historic Abbey. Beautiful wreaths from the Queen (with an autograph message), from the Prince of Wales and all the members of the Royal family, from Mrs. Gladstone, with the following couplet in her own handwriting:

"And in the vast cathedrals I have lived,
And in the vast cathedrals I have lived,
With many noble others, were tendered."

The pall bearers represented every phase of national life. The Marquis of Salisbury and Lord Rosebery stood near the Marquis of Dufferin, whose presence must have recalled the dedicatory lines in which the late Laureate once linked the memory of his son.

Followed it without a pause came the last poem of the great deceased:

Call me rather, silent voices,
Forward to the starry track
Glimmering up the heights beyond me,
On and always on.

The death and burial of Lord Tennyson seem to have been almost poetically perfect in sentiment and surroundings.

R. T. OF T.

Articles under this head are supplied by members of Grand Council No. 2, Royal Templars of the World.

Reasons for Total Abstinence from the Use of Alcohol.

Here is the white ribbon pledge, already signed by many a brave and resolute one. I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine and cider, and to employ all proper means to discourage the use of and traffic in the same.

I offer the following reasons, which justify the taking of this pledge:

First. Modern science proves that alcohol is not helpful to any vital process. It is the enemy of vitality. It overworks the organs with which it comes in contact, inducing needless friction.

Second. The appetite for alcoholic drinks is enervative. It has no power of self-restriction. It grows by what it feeds on. One glass calls for two, two for three, and so on in dangerous ratio.

Third. The life of a drinking man is apt to be divided into two chapters of a very tragic sort, in the first of which he would have left off if he would, and in the second he would have left off if he could.

Fourth. The power of habit is practically omnipotent. The power of will to cope with it has been proven inefficient. The grooves of action are quickly worn. No harm results from doing without alcohol, but absolute good has been proven to result from such abstinence. Therefore as a friend to myself, and the special guardian of my own well-being, I am bound to let intoxicating liquors alone; and by the same token of Christ's golden rule I am equally bound to let them alone because of my neighbor's well-being of those about me, and because of my purpose and by God's grace to investigate my life in waiting the day when all men's will shall be truth man's care.

RHEUMATISM NERVOUS DISEASES CAN BE CURED

ELECTRICITY, AS APPLIED BY THE OWEN ELECTRIC BELT AND APPLIANCES.

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will often cure in a single day what formerly every other remedy has failed to cure. It is the only remedy, and by its study, reading, and study, is the only remedy for RHEUMATISM, NERVOUS DISEASES, LUMBAGO, SCIATICA, NEURALGIA, MIGRAINE, BRUISES, BURNS, SCALDS, ETC.

RHEUMATISM

"For twenty years I have been a martyr to rheumatism, suffering at times the most excruciating pains, from which I could get no relief, for doctors' medicines, poultices, etc., had no effect on me, and it was only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvellous, removing the pain in a few days.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

NERVOUS DISEASES

Thousands of people suffer from a variety of nervous diseases such as General Weakness, Impotency, Loss of Memory, etc., that the old modes of treatment fail to cure. There is a new mode of cure, and it is only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvellous, removing the pain in a few days.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

KIDNEY DISEASE

"I have been suffering from kidney disease for years. I had been told that I was going to die, and I was very much distressed. I got the Owen Electric Belt, and after using it for a few days, I felt much better. I am now completely cured, and have been so for months.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

LUMBAGO AND LAME BACK

"I have been suffering from lumbago and lame back for years. I had been told that I was going to die, and I was very much distressed. I got the Owen Electric Belt, and after using it for a few days, I felt much better. I am now completely cured, and have been so for months.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

DYSPEPSIA

"I have been suffering from dyspepsia for years. I had been told that I was going to die, and I was very much distressed. I got the Owen Electric Belt, and after using it for a few days, I felt much better. I am now completely cured, and have been so for months.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

WE CHALLENGE THE WORLD

"I have been suffering from a variety of nervous diseases such as General Weakness, Impotency, Loss of Memory, etc., that the old modes of treatment fail to cure. There is a new mode of cure, and it is only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvellous, removing the pain in a few days.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

BEWARE OF IMITATIONS AND CHEAP BELTS

"I have been suffering from a variety of nervous diseases such as General Weakness, Impotency, Loss of Memory, etc., that the old modes of treatment fail to cure. There is a new mode of cure, and it is only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvellous, removing the pain in a few days.—W. J. GUNTER, 25 VANDERBILT STREET, TORONTO."

JOHN BRASS,

Main Street East Door From Old

FALL OPENING

SEASON 1892.

◆◆◆◆◆

Six years ago when I started business on the cash plan, other merchants gave me three months to last. I am here yet and have pretty well demonstrated the fact that the people of Moose Jaw will pay cash if by doing so they can save money. This system has enabled me to throw on the market large lots of goods purchased from large wholesale stocks, parties retiring from business, and overloaded manufacturers. These I have sold at low prices at the same time selling regular goods at from 10 to 25 per cent. less than other dealers. I shall continue this method of doing business regardless of croakers.

I will have auction sales on the following dates:

OCTOBER 8TH, 15TH, 22ND AND 29TH,

OF

Cook-stoves, Heating-stoves, Stove Furniture, Cutlery, Brushes, Brooms, Etc., Etc.

I have just received a car-load of all kinds of stoves. Another car-load is on the way. These goods are to be sold at the lowest prices. Call and see my stock.

FOR CASH ONLY.

Thanking you for past patronage.

Yours truly,

W. R. CAMPBELL

LOCAL AND GENERAL NEWS.

R. L. Alexander Dominion Government Agent has returned from Edmonton to which he will remove his family in the course of a few days. Mr. Alexander is much pleased with that part of Alberta as a field for immigration. During the past six weeks since he has been up in that part of the Territories he has been very busy looking after the many newcomers the greater of whom are from the United States.

New with your permission and the
of Rambler and the other able writers
of Bazar. I will endeavor to send
you a little news. Only as soon as
there is any scrapping to be done I
must quit, as I do not claim to be a
scraper by any means.

Teaching is about completed in this
district. We understand the yield is
very fair and the sample extra good.
